Net Zero by 2030:

Rail Green Points indicate by how much you have reduced your carbon footprint and reduced carbon intensity of the economy by choosing IR over Road. As per Government of India's Biennial Update Report-3, transport contributed 13% of emissions from the energy sector with 90% from road transport, civil aviation 6% and railways 3%.

***Disclaimer:**

There is no link between carbon credit and Railway Green Point. The carbon saving in the form of Rail Green Points shown here is indicative in nature estimated based on average carbon emission per km per tonne for rail and road as per the methodology mentioned on Freight Business Development(FBD) Portal. The carbon saving doesn't entitle the customer for any claim/compensation or benefit at present or in future.
